PROFILE

I am a student in computer science at the bachelor's degree. Passionate about IT for a long time, I decided to do my studies in Annecy to be able to transform this passion into a job. I am self-sufficient and I love to learn new things. I would like to enhance my skills by working in the web and mobile development with a big interest for innovation.

EXPERIENCES

DEVELOPER

apr 2019 - now

AboutGoods Company - Big data @ Annecy, France

Work-study contract **july 2019 - july 2020**

Aboutgoods is a start-up that has developed a new way to get consumer insight and data from receipt and bank transactions.

I'm working on different projects into the company like iOS and Android development and also backend development with Symfony or Kotlin in an innovation context. I'm using modern tools like ElasticSearch or MongoDB.

Internship **april 2019 - june 2019**

Android, iOS and backend (Kotlin) development.

I worked on the v3 of TachetKOA, an application which helps you manage your shopping lists and allows you to scan your receipt analyzed by the AboutGoods backend.

TEAM PROJECT

sep 2018 - mar 2019

Espace Revêtements TSD - Construction works @ Séez, France

Second year university project

Wrote the specification document with the customer.

Designed and developing an Android application with the IONIC framework, using Visual Studio. The aim of this app is to collect all the customers information, quotes and meeting information. This application helps the user to have access at all information that he needs when he is away from his office.

Created the communication with the company ERP (Odoo) to collect the information.

EDUCATIONS

LPDIM

sep 2019 - jun 2020

CCI Annecy & USMB @ Annecy, France

Professional Bachelor's Degree in multi-platform software development - Sandwich course

DUT INFORMATIQUE

2017 - 2019

IUT Annecy @ Annecy, France

2-year university diploma in computer science with excellence award

FRENCH BACCALAUREATE S-SI

2014 - 2017

René Perrin High School @ Ugine, France

High School diploma specialized in science and computer engineering with high honors

PERSONAL SKILLS & HOBBIES

I am self-sufficient, punctual and orderly. I have good time management skills and I am able to concentrate on multiple projects at once.

I am passionate about rally that I follow spectating on roadside and competing thanks to my association *BattleDrive Competition*.
